

PROFESSIONAL SUMMARY

UI/UX Designer and Product Designer with 4.5+ years of experience designing user-centered digital products across enterprise software, mobile applications, web platforms, kiosks, hospitality solutions, loyalty platforms, and responsive websites. Experienced in end-to-end product design from problem framing, user flows, information architecture and wireframing to high-fidelity UI, interactive prototyping, usability testing, design systems and developer handoff. Strong focus on accessibility, responsive design, interaction design, Human-Computer Interaction (HCI), and AI-assisted design workflows. Comfortable collaborating with product, engineering and business teams in Agile environments.

CORE COMPETENCIES

UX Strategy & Problem Framing • User Research • Design Thinking • Jobs-to-be-Done (JTBD) • Information Architecture • User Flows • Wireframing • Interaction Design • Prototyping • Usability Testing • Heuristic Evaluation • Responsive & Adaptive UI • Design Systems • Design Tokens • Micro-interactions • Accessibility & WCAG 2.2 • Enterprise UX • Mobile UX • Web UX • Kiosk UX • Data-informed Design Decisions • Developer Handoff • Agile Collaboration • AI-assisted Design • Generative UI Exploration.

TOOLS & TECHNOLOGIES

Design : Figma (Advanced, Variables, Modes, Conditional Logic, Design Systems, AI) • FigJam • Miro • Adobe XD • Photoshop • Illustrator.

Development : Framer • HTML • CSS • No-Code / Low-Code Design Collaboration • JavaScript • React • Tailwind CSS.

PROFESSIONAL EXPERIENCE

YsecIT Softwares Pvt Ltd — UI/UX Designer

2024 – Present

- Design enterprise applications, digital platforms and hospitality products across web, mobile and operational workflows.
- Work across **inventory management, work order management and production management software, translating complex business processes into usable interfaces.**
- Design hospitality solutions including **Housekeeping Task Manager, Kiosk Booking App and Parking Booking App with real-time reservations.**
- Create **user flows, wireframes, high-fidelity UI, interactive prototypes, reusable components and scalable design systems.**
- Collaborate with product, engineering and business stakeholders in Agile environments to balance user needs, technical constraints and business objectives and Use AI-assisted design and generative ideation workflows to accelerate exploration, iteration and product design decision-making.

Loyltwo3ks Pvt Ltd — UI/UX Designer

2021 – 2023

- Designed loyalty platforms, mobile applications and microsites for major Indian brands including Century Ply, Walkaroo, Hoya Opticals, HR Johnson and Sharon Ply.
- Delivered end-to-end UX/UI design from requirements and user flows through wireframing, prototyping, usability validation and design handoff.
- Balanced user experience, visual identity and business goals to support customer engagement and retention.
- Built reusable UI patterns and scalable design approaches to improve consistency across digital products.

Sharesoft Technology — UI Intern

2021

- Designed responsive websites, custom themes and marketing assets for U.S.-based clients.
- Applied visual design, branding, responsive layout and user-centered design principles across client deliverables.
- Developed foundational experience in design consistency, digital interfaces and real-world product requirements.

SELECTED PRODUCT DESIGN DOMAINS

Enterprise Software • Inventory & Production Management • Work Order Management • Loyalty Platforms • Hospitality • Kiosk Applications • Booking & Reservation Systems • Digital Signage • Career Platforms • Mobile Applications • Responsive Web • Healthcare • Finance • FMCG • Retail • Manufacturing

EDUCATION

B.Tech in Information Technology	2018 – 2021
Diploma in Computer Science Engineering	2015 – 2018

CERTIFICATIONS & RECOGNITION

- Google UX Design Professional Certificate — Coursera
- UI/UX Specialization — Coursera

RECOGNITION

- Best Performer of Q4 2025 — YSecIT Softwares, Bangalore, India
- Mr. Innovative Award — Loyltwo3ks IT Pvt Ltd, Bangalore, India

UX CASE STUDY

TNSETC ECO Sysyem UX Case Study - [View Detailed Case Study](#)

A unified three-part digital solution—Customer App, Conductor POS App, and Admin Dashboard—designed to eliminate paper-based workflows, enable real-time tracking, and introduce universal accessibility to Tamil Nadu's state transit infrastructure.

Smart LPG Ecosystem UX Case Study - [View Detailed Case Study](#)

A connected LPG ecosystem designed to help households monitor gas levels, understand consumption, predict refill needs, and remotely manage safety—bringing greater visibility and control to everyday LPG usage.

Safepay (Fintech Escrow) UX Case Study - [View Detailed Case Study](#)

An end-to-end fintech mobile web solution that protects everyday social media buyers from advance-payment fraud using automated escrow-backed smart payment links, while giving independent Instagram/WhatsApp sellers a trust-verified checkout system.
