

4.6+ YEARS EXPERIENCE | SENIOR PRODUCT DESIGNER | ENTERPRISE B2B SAAS

 Bangalore, India  +91 860 831 2034  jeyakumar.ux@gmail.com  [in/me-jeyakumar-p/](https://in.me-jeyakumar-p/)

PROFESSIONAL SUMMARY

Senior Product Designer with 5 years of experience specializing in complex Enterprise SaaS, technical operations, and data-heavy systems. Expert at converting intricate workflows, multi-tenant permission layers, and dense functional requirements into intuitive, consumer-grade interfaces. Possesses a strong technical IT background and high-ownership mindset, leveraging AI-native workflows to scale products from concept to airtight execution.

TOOLS & TECHNOLOGIES

Design & Architecture: End-to-End Product Design, Information Architecture, Data-Heavy Dashboard Design, High-Fidelity Prototyping, Mobile-First Systems, Designing for Constraints (Low Connectivity/Accessibility).

System Logic & Execution: Figma Architecture (Advanced Variables, Modes, Conditional Logic), FigJam, Centralized Design Tokens, UI Edge States (Error/Empty/Loading/Validation), User Research, Post-Implementation UI Reviews.

Engineering Alignment : HTML, CSS, Tailwind CSS, JavaScript, and Production-Ready Developer Handoff.

PROFESSIONAL EXPERIENCE

- YsecIT Softwares Pvt Ltd — UI/UX Designer

2024 – Present

Enterprise ERP & Operations : Owned end-to-end design for complex B2B inventory, work order, and production systems. Transformed raw requirements into high-density dashboards, interactive filtering tables, and multi-role workflows.

Figma Systems Architecture : Architected and maintained scalable design systems leveraging advanced Figma variables, modes, and conditional logic to eliminate engineering handoff friction and guarantee multi-platform alignment.

High-Velocity AI Pipeline : Embedded generative UI workflows and AI-assisted design tooling directly into the discovery and execution pipeline, slashing early-stage layout ideation and rapid prototyping cycles by half.

Deskless Mobile Applications : Designed mobile-first interfaces for real-time housekeeping task managers and Booking Kiosks, optimizing workflows under real-world operational constraints like high user distraction and hardware variance.

Leadership & Collaboration : Mentored junior designers, spearheaded team-wide critique loops, and partnered directly with Product Managers and Engineering leads to establish project scope, validate user logic, and drive product roadmaps.
- Loyltwo3ks Pvt Ltd — UI/UX Designer

2021 – 2023

B2C & Web Admin Platforms : Managed product design for scalable customer engagement software, interactive microsites, and responsive management dashboards deployed across major domestic client brands.

User Validation Frameworks : Formulated clear user flows, detailed wireframes, and interactive high-fidelity prototypes backed by rigorous usability testing to maximize conversion rates and visual brand alignment.

UI Component Standardization : Built centralized, reusable UI pattern libraries that standardized cross-platform visual consistency and accelerated frontend deployment timelines across multiple client deployments.
- Sharesoft Technology — UI Intern

2021

 - Produced custom web layouts, responsive themes, and high-fidelity digital assets for international client portfolios.

RECOGNITION & CERTIFICATIONS

Awards: Best Performer of Q4 2025 (YSecIT Softwares) • Mr. Innovative Award (Loyltwo3ks IT)

Certifications : Google UX Design Professional Certificate • UI/UX Specialization (Coursera)

Education : B.Tech in Information Technology (2018–2021) • Diploma in Computer Science Engineering (2015–2018)

SELECTED UX CASE STUDIES

- TNSETC Transit Ecosystem:** Unified Customer App, Conductor POS, and Admin Dashboard replacing paper-based transit workflows. [View Detailed Case Study](#)
- Smart LPG Ecosystem :** Connected IoT ecosystem helping households monitor gas consumption and remotely manage safety. [View Detailed Case Study](#)
- Safepay (Fintech Escrow) :** Web-based mobile solution protecting social buyers from fraud via automated escrow smart links. [View Detailed Case Study](#)
